

c/o Dr Patrick Wyse Jackson, Department of Geology, Trinity College, Dublin 2
 Tel: 01-8961477; Fax: 01-6711199; e-mail: wysjcknp@tcd.ie; webpage:
www.geoschol.com

Recently **Geoschol**, a group made up of the Geological Museum, Trinity College, Dublin, the National Museum of Ireland, and the Ulster Museum has provided educational resources for primary schools. A set comprising an activity book and four posters on Ireland's geology have been sent free to every primary school in Ireland. This was made possible thanks to a grant of the Irish Government as part of the Griffith Geosciences Research Awards of the Geological Survey of Ireland.

There is a webpage associated with this material: www.geoschol.com where digital copies of the posters, the activity book and in time information about the geology of your county are available for free downloads as pdfs. There is also information for children to download, and there are also links to other sites about geology. Overtime the webpages will be added to.

Additional sets are available for purchase (while stocks last) by primary schools, other schools, educational centres, and by individuals. Please use the order form below.

ACTIVITY BOOK

- 25 pages of activities
- A4 size ideal for photocopying by teachers.
- pdf for easy downloading.
- b/w format for colouring by primary level children.

POSTERS

Geological history of Ireland; Geology in the home; Planet Earth; Building Stones of Ireland

Please send me ___ set(s) of the Activity Book and 4 posters @ €20 per set.
